GIANNI SANTUCCI

Caracas, Venezuela | (+58) 412 990 52 44 | gianni.d.santucc@gmail.com | github.com/santu1987

PROFESSIONAL SUMMARY

Senior Software Engineer with over 10 years of experience designing, architecting, and scaling enterprise web applications, REST APIs, and database structures. Proven track record in full-stack development, cross-border system integration, and distributed remote team collaboration across North America, Latin America, and Europe.

EDUCATION

INSTITUTO UNIVERSITARIO TECNOLÓGICO DEL OESTE MARISCAL SUCRE (IUTOMS) **2013 – 2015**

Bachelor of Science in Computer Engineering (Cum Laude Honors) *Caracas, Venezuela*

INSTITUTO UNIVERSITARIO JESÚS OBRERO (IUJO) **2005 – 2008**

Higher University Technician in Computer Science (Cum Laude Honors) *Caracas, Venezuela*

INSTITUTO TÉCNICO JESÚS OBRERO (ITJO) **2000 – 2005**

High School Diploma in Data Processing *Caracas, Venezuela*

TECHNICAL SKILLS

- **Backend Development:** PHP (Laravel, Filament, CodeIgniter), Python (Django), RESTful APIs, Microservices, Postman
- **Frontend Development:** JavaScript (ES6+), TypeScript, Vue.js 3, Angular, AngularJS 1.x, HTML5, CSS3, Bootstrap, Tailwind CSS, Ajax, jQuery
- **Database Architecture:** PostgreSQL, MySQL, MongoDB, Relational Database Design, Query Optimization
- **IA:** Open code, Antigravity, Gemini, ChatGPT, Copilot, ZLM
- **Tools & Methodologies:** Git, Docker, Linux/Bash, Agile/SCRUM, Jira, Trello, Asana, Basecamp, CI/CD Integration

PROFESSIONAL EXPERIENCE

Hispanos Soluciones **Jul 2020 – Present**

Senior Fullstack Developer *Remote*

- Engineered robust web applications and backend systems for international corporate clients in Mexico, Colombia, USA, Spain, and Ecuador.
- Architected core APIs and modular services using PHP (Laravel, Filament, CodeIgniter) and Python (Django).
- Built responsive, dynamic single-page frontend interfaces with Vue.js 3, Angular, TypeScript, and modern CSS frameworks.
- Engineered RESTful API integrations and optimized database query execution times across complex schemas.

Independent Software Consultancy **2016 – Present**

Freelance Software Engineer *Remote*

- Delivered end-to-end software development services covering frontend, backend architecture, and database administration.
- Collaborated with digital agencies, software factories, and tech startups to build custom digital products and web portals.
- Maintained continuous remote client delivery operations for over 8 consecutive years.

ReÁnima Soluciones Digitales **Nov 2025 – Jul 2026**

Backend Developer *Spain (Remote)*

- Developed scalable backend web services for the CIMA web application dedicated to women filmmakers.
- Implemented Laravel 12 (PHP 8.2) architecture connected to MySQL database infrastructure with Postman API documentation.
- Constructed administrative dashboards using Filament v3 and automated REST webhooks for WordPress synchronization.

• Integrated Firebase Cloud Messaging service to deliver real-time push notifications across user devices.

Experteam Cia. Ltda. / DHL **Dec 2021 – Mar 2025**

Frontend Angular Developer *Ecuador (Remote)*

• Architected key modules for DHL's CRA-10 logistics package control platform using Angular framework.

• Engineered core functional modules: Commercial Invoicing, Shipment Billings, DropOff management, Mobile DropOff, and External Billing.

• Developed back-office administration tools and resolved high-priority software bugs under Agile SCRUM management via Jira.

Estratégica Smarter Marketing **Jan 2021 – Nov 2021**

Senior Full Stack Developer *Mexico (Remote)*

• Built the Socially Responsible Company Registry (ESR) web platform for CEMEFI organization.

• Executed full-stack web engineering using Laravel, Vue.js 3, and MySQL database structures.

Ag2 IT Consulting **Jul 2018 – Oct 2019**

Senior Full Stack Developer *Mexico (Remote)*

• Developed UrbanHub CRM software system specialized in managing coworking office space rentals.

• Built back-to-front features using CodeIgniter, native JavaScript, PostgreSQL, and MongoDB datastores.

Ávila TV Foundation **Feb 2015 – May 2018**

Senior Full Stack Developer *Caracas, Venezuela*

• Led institutional migration of legacy PHP web systems to modern Django 1.x and Laravel 5.x Python/PHP frameworks.

• Engineered internal Help Desk system (PHP MVC / JS / PostgreSQL) and SIGOT broadcast equipment control system (Django / PostgreSQL).

Ministry of Youth (MinJuventud) **Mar 2013 – Jan 2015**

Web Development Coordinator *Caracas, Venezuela*

• Directed engineering development team building national Youth Registry System (SRJ) with banking data integrations.

• Built custom Linux-based SMS messaging network gateways using PHP, JS, and PostgreSQL.

OCHINA (Hydrography and Navigation Office) **Jan 2009 – Dec 2012**

Programmer Analyst III *Caracas, Venezuela*

• Designed and programmed Treasury, Accounts Payable, and Financial Accounting modules for administrative ERP system (SAI-OCHINA).

KEY PROJECTS & ACHIEVEMENTS

• **CIMA Platform Backend:** Constructed administrative hub and RESTful API backend for CIMA women filmmakers organization (Laravel 12 / Filament v3).

• **DHL CRA-10 System:** Engineered cross-border parcel tracking, billing, and drop-off management modules for DHL package operations.

• **ESR CEMEFI Portal:** Created multi-tenant web registry platform for managing corporate social responsibility certifications across Mexico.

• **UrbanHub Coworking CRM:** Architected property lease management system for coworking rental hubs using CodeIgniter and MongoDB.

CERTIFICATIONS & LANGUAGES

• **Professional Certifications:** PHP with Laravel (Platzi), Professional Angular & Web Development (Código Facilito), Advanced JavaScript & ECMAScript 6+ (Platzi)

• **Languages:** Spanish (Native), English (Level 3 Professional Certification - Open English)

• **Professional References:** Available upon request (José Parisi - Senior Full Stack Dev | Nelly Moreno - Backend AI Dev)
